

EERE/NASULGC Partnership

Linda Kay Benning, Assoc. Director

NASULGC

February 7, 2006

Partnership Goals

- Improved communications
- Expanded product use
- More young people involve in science
- Enhanced interactions between EERE and universities.

NASULGC/EERE Projects

FY04 Pilot Projects

- EERE/NASULGC Collaborations
- EERE Products used through Extension and Outreach faculty
- Engagement of 4-H youth
- Role of IP regulations
- Universities/National Lab collaboration

Using Thermometers

- Light is radiant energy that travels in waves
- We can measure heat with a thermometer

Solar Balloon

Success!

FY05-FY08 Efforts

- Enhance EERE Program Impact at the Regional Level
- Institutionalize Extension Outreach Capacity
- Increase Youth Education About Energy
- Expand Joint University/EERE Lab Workshops
- Develop EERE/University Relationships

Training Underway

Hands On Learning
