LIPA and NYPA Partner to Help Schools and Municipalities Go Green and Save Money

Free summits will help to save energy, lower electric costs, and raise awareness about energy efficiency

Uniondale, NY—In a continuing effort to help Long Island's schools and municipalities go green and save money, the Long Island Power Authority (LIPA), along with the New York Power Authority (NYPA) and National Grid are sponsoring two free summits on how to access financial incentives and achieve cost savings through energy efficiency and renewable programs.

Over 200 representatives from both Nassau and Suffolk Counties, including superintendents, business officials and facilities directors; as well as county and town officials and village mayors have registered to attend the summit. These energy efficiency summits are part of an on-going outreach to Long Island's schools and municipalities to discuss and highlight its programs and how LIPA's partnership with NYPA and National Grid can benefit the region environmentally and economically.

Through LIPA's Efficiency Long Island program, LIPA has worked with hundreds of schools, municipalities, and public facilities to help them save energy and lower their electric costs more than \$7 million dollars per year. To learn more about Efficiency Long Island visit <http://www.lipower.org/eli/>

Energy Efficiency Summits:

- Thursday, April 7, 2011, 8:30AM -10:30AM
Omni Teleconference Center
333 Earle Ovington Blvd., Uniondale, NY 11553
- Friday, April 8, 2001 8:30AM -10:30 AM
Courtyard by Marriott
5000 Express Drive South, Ronkonkoma, NY 11779

LIPA, a non-profit municipal electric provider, owns the retail electric Transmission and Distribution System on Long Island and provides electric service to more than 1.1 million customers in Nassau and Suffolk counties and the Rockaway Peninsula in Queens. LIPA is the 2nd largest municipal electric utility in the nation in terms of electric revenues, 3rd largest in terms of customers served and the 7th largest in terms of electricity delivered. In 2008, LIPA outperformed all other overhead electric utilities in New York State for frequency of service interruptions, and ranked second for duration of service interruptions. LIPA does not provide natural gas service or own any on-island generating assets. More information about LIPA can be found online at: <http://www.lipower.org>.
